

Waists, Shirts and Skirts

The Big Features For Saturday

Our list of Week-End Specials presented today is unusually comprehensive, but the three big items are waists, shirts and skirts. Our constantly increasing Saturday business leads us to expend extra effort in the selection of Week-End Specials and the ones offered for tomorrow are not only seasonable but most attractively priced.

As an Extra Special tomorrow, we offer wool walking skirts at the very nominal price of \$1.95. These are two-piece skirts in gray and tan wool mixtures. Button on the side. Plain colors are shown—black, blues, tans, browns, grays, etc. There is also a wide range of choice in fancy mixtures. Hard to Fit?

Been having your clothes made to order because you thought you could not be fitted in ready to wear clothes? Then you are the man we want to talk to.

Give us a chance and we will demonstrate that Sol I. Berg's clothes will fit you as if made for you.

Here are some of the distinguishing points of Sol I. Berg's clothes that make easy a perfect fit, even if the proportions of your figure do not exactly match those of the average man: A snug fitting collar, smooth lying lapels, shapely shoulders, shape retaining coat fronts, correctly draped back, perfectly poised sleeves, thin edges, accurately placed buttons and button holes, trousers shaped to fit snugly at the waist and over the hips to hang well and hug the heels.

Besides we have special models for the tall man and for the short, the stout man and the slim. So unless decidedly abnormal or deformed, there are very few men that we cannot satisfactorily fit in Sol I. Berg's ready to wear clothes. Occasionally slight alterations are necessary, which we make cheerfully and promptly.

Last but not least, we can suit your pocket-book. Our prices are from \$10.00 to \$50.00.

A Turkey Dinner and Enchilada Supper given by the Catholic ladies for the benefit of St. Mary's School, is the biggest special for tomorrow we can think of. This takes place in our additional store building, which is to be occupied by us at an early date.

DANGER ST. FRANCIS LEVEE BREAKING

Lives of Many Thousands in the Balance—The Water Rising Rapidly.

Memphis, Tenn., April 12.—Telephone communication was lost today with Luxora and Osceola and Marked Tree, Ark., and the last news was that the levee situation was grave. This announcement was made by the St. Francis levee board. The district has a population of more than 50,000.

The last report from Marked Tree said the water was rising there an inch an hour. Women and children have been taken to the highest points in Luxora, which for the most part lies below the levee. Every able bodied man at Luxora is engaged in working on the levee.

Telegrams to United States senator Clark of Arkansas, were forwarded by the St. Francis levee board, asking him to take up with the federal authorities the question of distributing corn and cotton seed for spring planting.

River Falling.
The river here continued to fall slowly. The gauge reading at 7 o'clock this morning showed a stage of 42.5, a fall of one-tenth since 7 o'clock last night. The Memphis district, Helena, Ark., is becoming the center of interest. Water from three breaks is making its way back into the Mississippi river through the St. Francis river which empties into the Mississippi just above that city. However, the levee at Helena is unusually strong and it is generally believed it will withstand the pressure.

Levees Strong At Greenville.
Greenville, Miss., April 12.—The river here today stands at 50.5 feet, a rise of two tenths since yesterday. This is one and four-tenths higher than all previous records, but all levees are holding strong near here.

Reports sent broadcast that the levee had broken at Luxor landing, Ark., opposite Greenville are without foundation.
